Since 1973... During these 35 years, Los Chichos have turned into a Spanish icon, a brand or more, a monument, such as the Osborne bull or "Las Ventas" square. During three decades Los Chichos went with the Spaniards everywhere: on Holidays, in parties, in the good moments but also in the bad ones... They overcame the trends, the governments... with simplicity, since today, with this tribute CD: "Hasta aquí hemos llegado" is a tribute to their 35 years journey. These artists recorded and offer us surprises and marvellous treasures. The producer Evora helped each member to show their special art (Manolo García, Estopa Falete, El Arrebato, Peret, Andy y Lucas, etc), and Los Chichos bring their very special touch. You will find souvenirs and nostalgia mixed with modernity and different universes. The basis and the musical arrangements make these songs unforgettable.
